

All-in- One Security System

- Alarm
- Paging
- Recording
- Monitoring
- Home automation

Operated by mobile phone/telephone from remote location
Still/Moving image Monitoring, Interactive Communication
from remote location

Easy to install(Do -It-Yourself) product
Home, office, store, warehouse, any indoor area

WENS 1500

Best Security Solution with Video Alarm System for Multimedia Era

FUNCTION

Alarm & Paging

- **Intruder detection** When intrusion is detected, the PIR sensor detects human moving, captures the image, and sends the alarm to programmed phone numbers.
- **Magnetic Sensor** It can be installed at the windows to enhance intruder detection.
- **Siren** Either built in or standalone powerful siren gives a strong warning to the intruder.
- **Gas leakage detection** with gas sensor(Optional)
- **Fire detection** with fire sensor(Optional)
- **Emergency Call** A user(aged, children, disabled) presses emergency button, programmed multiple telephone numbers are automatically dialed for help.
- **Detection Announcement Language** When intruder is detected, pre-recorded voice message(local language) is automatically called to programmed multiple telephone numbers.

Recording(Still and moving Image, Sound) and Monitoring

- The built in digital camera with the motion detector accurately films and records sound and the moving objects for future evidence and analysis.
- Monitoring is available on PC at remote locations.

Home Automation

Operated by mobile phone/telephone from remote locations

- Digital Door Lock On/Off
- Indoor Light On/Off
- Boiler Heating On/Off
- Air Conditioner On/Off
- Other Electric Appliances

Door Phone It can be used as a normal door phone when warning mode is off. When warning mode is on, a visitor presses the door phone which dialed automatically to the person in remote location and let communicate each other(The first in the world).

CC Camera and DVR function It can be used as a CC Camera and DVR when connected with PC.

Interactive Communication Highly sensitive built in microphone and speaker enable Interactive Communication(Sound and Voice).

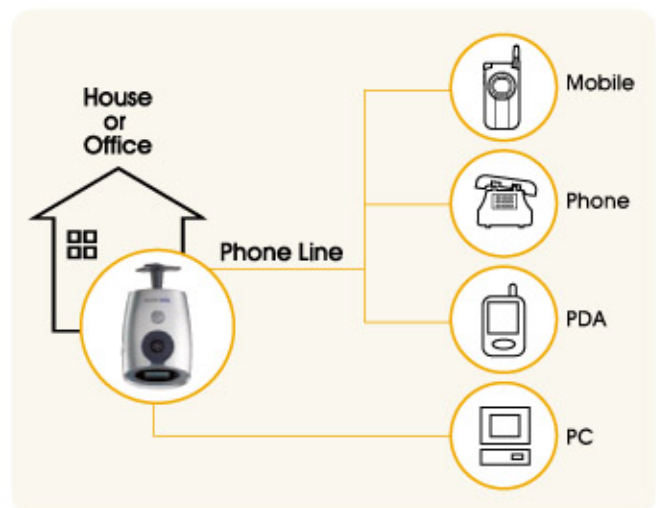

APPLICATIONS

- Home, store, office, warehouse, any indoor area

SPECIFICATIONS

- **Video format** MPEG4 640 x 480
- **Still frames** Around 100 cuts at 640 x 480
Power : DC12V300mA
Dimensions : 35(D) x 74(W) x 108(H), 1.4"(D) x 2.9"(W) x 4.2"(H)
Weight 200g/0.45lb
Operating Temperature -10 ~ 50Celsius
- Immediate Telephone connection seconds from intrusion detection.
- Use of dedicated ASIC chip enables much clearer picture with super brightness.
